About Getac

Getac was founded in 1989 by MiTAC Technology Corporation and GE Aerospace as a joint venture, and has been a pioneer and leading innovator for the rugged mobile computing solutions ever since. Getac provides premier fully rugged notebooks, tablet PCs and handhelds for military, law enforcement, public safety, utilities, telecommunication, manufacturing, field service and mobile workforce industries. Every Getac computer is originated from the most stringent design and manufacturing processes, to ensure the best product performance. The distinguished product quality and comprehensive services are geared for ultimate customer satisfaction.

For more information, please visit the Getac global website at www.getac.com

About Northern Micro

Northern Micro was founded in 1985 by Herman Yeh, and has been a leading reseller to the Canadian Government and Ottawa market. Northern Micro initially offered it's home brand of Spirit solutions but has since become a major reseller focusing on enterprise and security solutions among others. Northern Micro is recognized as an NMSO expert and specializes in helping its customers find solutions to their needs using procurement vehicles available.

About Donna Cona

Donna Cona is a leading business and technology solutions company providing services across Canada. Incorporated in 1996, Donna Cona has achieved significant annual growth by delivering quality services with their team of highly skilled professionals.

Donna Cona specializes in providing services but has successfully hosted several product lines on the aboriginal standing offers in partnership with Northern Micro. The most recent additions are this ruggedized convertible tablet and a 3D simulation workstation. Other solutions offered include several desktops, a mobile workstation and a convertible tablet (non-ruggedized). All of these offerings are currently available through Northern Micro
